

WINE LABELS ILLUSTRATOR® DESIGN TEMPLATE

- This is an Instruction Layer: You may hide or delete this layer. Do not design in Instruction Layer.
- Start design in Label Layer 1. You may add as many additional layers as desired. The die line is provided as guidance.
- Bleeds should extend 0.05" outside die lines.
- Convert all fonts to outlines. This will save having to send fonts with file and prevent unexpected differences between what you see on screen and printed results.
