MaverickLabel.Com Announces Updated Ordering System for Control Panels, Graphic Overlays, & Name Plates Product Line

FOR IMMEDIATE RELEASE

February 12, 2008 – Edmonds, Washington - MaverickLabel.Com, leading pioneer of label products via the Internet, today announced the introduction of a new and improved online ordering system for their control panels, graphic overlays, & name plates product line.

"Our new ordering page for control panels & name plates makes it easier than ever to order these products," said Mark Trumper, MaverickLabel.Com CEO. "We made the ordering process shorter and added a Help Center to the page. These improvements make it faster for customers to both find what they are looking for and complete their order. We also added the ability to get an instant price quote with our patented Uber Quoter® feature. No other site on the Internet has instant quoting on this product," he added.

MaverickLabel.Com's control panels, graphic overlays, & name plates product line is available in a variety of substrates, including the company's own trademarked "Lexsaver®" material. And, the product is available with several different adhesive backings - for placement on smooth or rough surfaces. Alternatively, the product can be purchased without an adhesive backing - for placement behind glass, acrylic surfaces, etc.

"These products are available in short-run quantities, from as low as just one label. And, all of our control panels, graphic overlays, & name plates are available in virtually any shape, size or configuration imaginable. Our intuitive instant quoter makes ordering control panels quick and easy," Mr. Trumper went on to say.

MaverickLabel.Com offers control panels, graphic overlays, & custom name plates with these features:

- **No Die or Tooling Charges**
- **Any Size, Shape and Configuration Available - with Unlimited Areas for Cutouts, Transparent Windows, Push Button Actuations, etc.**
- **Free Digital Online Proof**
- **Product Ships in Only 4 Days or Less**
- **Printed on Tough Lexan® or Lexsaver® Materials**
